

A large crowd of people is gathered at an outdoor event, likely a festival or concert. In the background, there are several thatched-roof huts and a large, stylized sculpture of two giant hands reaching down. The scene is set in a lush, tropical environment with palm trees and other vegetation. The crowd is diverse, with many people wearing hats and holding up their phones to take pictures or videos. The overall atmosphere is festive and energetic.

OUR HISTORY

Eclectic was born at the beginning of 2022 in IP Management's headquarters as the agency's official party with one goal: to create interactions and connections around the world by highlighting our artists. The adventure began with the first parties in Switzerland and Milan, strengthening in the summer season in Ibiza with the official residency at Tantra Club and with as many boat parties. Encouraged by the good vibrations and the public response we decided to export the project overseas in conjunction with the tour of some of our artists by planning two events, one in Tulum and one in Medellin, both of which met with success and approval.

The logo for 'Eclectic EVENTS' is located in the top left corner. It features the word 'Eclectic' in a white, sans-serif font, enclosed within a white rectangular border. Below 'Eclectic', the word 'EVENTS' is written in a smaller, yellow, sans-serif font.

OUR VISION

In an increasingly mainstream world, in our own small way, we are trying to bring forward a simple and direct concept:

- We like the idea of going back to the club concept where the DJ is at the centre and what he has to say with his style, his musical taste and thanks to the background he brings;
- We like the idea of focusing on the music and the experience of the audience rather than on the artist/personality of the moment;
- We like the idea of being able to propose parties that can range from house to more techno sounds through infinite nuances;
- We like the idea of proposing different genres of music and artists, adapting to the context that hosts us without necessarily being categorised or labelled;
- We like the idea of being able to give voice to new emerging talents by giving them space and without forcing them to compromise.

OUR VISION

OUR MISSION

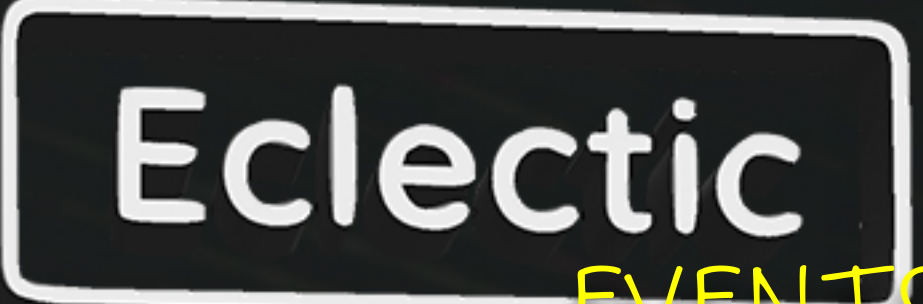

To collect smiles and positive vibes around the world through the universal language of music. At the same time, it is also important for us to give back value, and we try to do this by promoting the beauty of the area that hosts our festivals through the creation of professional, high quality audio video material which, once published on social channels, generally tends to go viral with views in different parts of the world.

OUR FORMAT

Eclectic is a party concept that is developed and customised from time to time depending on the context and location, which is why we like to call ourselves 'chameleonic'.

Eclectic is not simply a party but a powerful tool that we use to create connections with other realities of the electronic scene worldwide.

This is why we always try to involve resident DJs from our supporting partners or local DJs from the host area by including them in the line-ups. Moreover, we believe that clubbers take more pleasure in "living an experience", preserving an indelible memory in their hearts and minds; this is why we give particular importance to the set-ups, to the search for customised gadgets but also to the artwork that has become a real workhorse, being hand-drawn and each time showing characteristic elements of the location where the event will be produced.

OUR FORMAT

OUR FORMAT

The format envisages two types of events:

- Open air (generally daytime)
- Clubs

Our events are always attended by a professional videomaker who is responsible for recording audio/video material with professional high-definition equipment such as video cameras (6K), and where possible also drones, with the aim precisely of enhancing the territory also surrounding the location where the event is hosted.

We will also handle the post-production and creation of content such as reels and after movies, which will then be uploaded to the official Instagram and YouTube channels.
